

COMMENCEMENT

THE COLORADO COLLEGE • 105th ANNUAL COMMENCEMENT • JUNE 2, 1986, 8:30 AM

AMERICA THE BEAUTIFUL

Katharine Lee Bates (1859-1929)

*O beautiful for spacious skies,
For amber waves of grain,
For purple mountain majesties
Above the fruited plain!
America! America!
God shed His grace on thee,
And crown thy good with brotherhood,
From sea to shining sea!*

*O beautiful for pilgrim feet,
Whose stern, impassioned stress
A thoroughfare for freedom beat
Across the wilderness!
America! America!
God mend thine ev'ry flaw,
Confirm thy soul in self-control,
Thy liberty in law!*

Miss Bates, professor of English at Wellesley College, wrote the lyrics of "America the Beautiful" after a visit to the summit of Pikes Peak in 1893, when she was serving as an instructor in the summer session at Colorado College.

THE COLORADO COLLEGE HYMN

"St. Anne," Croft

*O God, our help in ages past,
Our hope for years to come,
Our shelter from the stormy blast
And our eternal home.*

*Under the shadow of Thy throne
Thy saints have dwelt secure;
Sufficient is Thine arm alone,
And our defence is sure.*

*Before the hills in order stood,
Or earth received her frame,
From everlasting Thou art God,
To endless years the same.*

*A thousand ages in Thy sight
Are like an evening gone;
Short as the watch that ends the night
Before the rising sun.*

*Time, like an ever-rolling stream,
Bears all its sons away;
They fly, forgotten, as a dream
Dies at the opening day.*

*O God, our help in ages past,
Our hope for years to come,
Be Thou our guide while life shall last
And our eternal home. Amen.
—Isaac Watts*

ALUMNI HONORARY DEGREES

*During opening convocation on September 4, 1986, Honorary Degrees will be awarded to distinguished alumni for the first time.
The following degrees will be awarded:*

Professor Donna J. Haraway, Class of 1966.

Professor Terry Allen Winograd, Class of 1966.

THE COLORADO COLLEGE

When a few brave and visionary men determined in 1874 to found a college in the shadow of the Rocky Mountains, Colorado was not yet a state; in fact, it was little more than an inhospitable frontier. Nonetheless, on February 4, 1874, the Board of Trustees adopted a charter establishing "The Colorado College," and stating that the Board's purpose was "to locate and maintain at Colorado Springs under Christian auspices an Institution of Learning on the college or university plan."

The College officially began with twelve students and two instructors meeting in a three-room frame building in the 200 block of North Tejon street. Student assemblies and daily prayer meetings were held in the Cumberland Presbyterian Church next door.

But the institution's stability was far from assured. In fact, the College's first president, the Reverend James G. Dougherty, said, "The trustees looked around for someone who had wit enough to see the fading possibilities of a college and not wit enough to perceive the great hindrances to success."

In fact, the hindrances turned out to be considerable. When there was not enough money for the president's salary, Dougherty resigned and within weeks a large party of Ute Indians, enroute from their mountain reservation to a buffalo hunt, were encamped on the four-block square that had been set aside for the campus.

The setback, however, was only temporary. In 1876, Edward Payson Tenney was offered the presidency of the "suspended" college, on the condition that he be responsible for raising the money to cover all operational and instructional expenses of the institution and not "place trustees of the college under any financial obligation." In his book on the history of the College, the former dean of men J. Juan Reid writes that when Tenney received the invitation from the College to be its president, he retired "deep into the Cape Anne woodlands near his Massachusetts home to pray for divine guidance and specifically, that Henry Cutler, a well-to-do deacon of his church, might become the divine instrument for putting new life into Colorado College." Apparently, Tenney's prayers were answered because Cutler consulted with officials of the American College and Education Society and he and four other Congregationalists from the Boston area agreed to finance the operational expenses of the College for one term on a trial basis.

In September 1876, the College reopened with 30 students and then embarked on a campaign to raise funds for the construction of a permanent College building. General William Jackson Palmer, founder of Colorado Springs and a trustee of the College, spoke at the ground-breaking for the new building on July 4, 1877. "In breaking this ground," he said, "let us set apart and forever devote it and the structure which is to rest upon it to the purposes of education, in the most unsectarian way, to the discovery and inculcation of the truth."

From that day forward, the College had a permanent home. The building was dedicated at the College's first commencement on May 31, 1882. On that day, two graduates received their degrees, Parker Halleck and Fredrick Tuckerman, and they were both required to give orations to the assembled gathering. After they had finished speaking about civil service reform and a "A Popular View of Philosophy", President Tenney

delivered a commencement address that lasted an hour and fifteen minutes.

Halcyon days followed. On April 12, 1883, in the first intercollegiate football game played west of the Mississippi, the College team defeated the team from the University of Denver 12-0. Following the game, Denver University accused the College of using "ringers" and the College admitted that they had played five of the best players of the Crowell Hose Company, one of the local volunteer fire departments.

In the years which followed, the College continued to expand, and buildings of peachblow sandstone grew up and formed the quadrangle. The same clear vision that went into creating the College came to the fore again to preserve, intact, the campus. William F. Slocum, the College's third president, refused to allow a local streetcar company to run its cars through the campus and insisted that the new science building be erected at the end of Tejon Street. When the City Council sided with Slocum, the owner of the streetcar company diverted what is said to have been "a substantial sum of money" once intended for the College to other, of course far less worthy purposes.

Today, more than 1850 students are enrolled at Colorado College. They are taught by 140 distinguished faculty members. The College's commitment to liberal arts and sciences education has remained steadfast and it now has in place a distinctive curriculum organization called the Block Plan, which was inaugurated in 1970. The College's tenth president, Gresham Riley, presides over today's ceremonies.

General Palmer's vision of a school dedicated to "the discovery and inculcation of the truth," is in good hands.

A NOTE ON ACADEMIC COSTUME

The academic costume worn by faculty gives commencement much of its traditional air of pageantry. So much so, that with its long, flowing gown and brightly colored hood, the costume would seem to have been designed for just this purpose. In fact, academic costume was designed in the Middle Ages, when all students were clerics, with much more practical considerations in mind. The gown and its attached hood helped to keep off the chill in the unheated buildings of the day. Even the bright linings of the hood were chosen with the purpose of identifying the religious order to which the student belonged.

To the knowledgeable observer, American academic costume today can be just as informative about its wearer as it was in the Middle Ages. Based on the intercollegiate code established in 1895, each aspect of the costume, such as gown color, mortar board tassel, and sleeve shape, indicates something about its wearer and the degrees received.

The gown is usually black, although some universities have adopted a brighter color scheme. The color of the tassel can indicate the highest degree the wearer has earned; a doctor's cap, for instance, frequently bears a tassel of gold. The sleeves are even more informative, with long pointed sleeves indicating the holder of a bachelor's degree; oblong sleeves, a master's degree; and bell shaped sleeves, a doctor or specialist. The doctor can be distinguished from the specialist by the three bars that adorn the sleeves of the gown.

With its brightly colored lining, the hood is the outstanding feature of the academic costume. The color of the lining indicates the college or university that has granted the degree – Colorado College hoods, for instance, are lined in gold. Each hood bears a border, the color of which is determined by the degree the wearer has earned. So, a doctor of philosophy's hood will always have a border of blue, regardless of the field studied.

Among the institutional colors which may be seen at today's commencement are the following: University of California, gold, blue chevron; University of Chicago, maroon; University of Colorado, gold, silver gray chevron; Columbia University, light blue, white chevron; Harvard University, crimson; University of Illinois, dark blue, two orange chevrons; Indiana University, crimson, white chevron; Johns Hopkins University, dark blue, gold chevron; University of Michigan, maize, azure blue chevron; Massachusetts Institute of Technology, bright red, silver gray chevron; Northwestern University, purple, gold chevron; University of Pennsylvania, cardinal, blue chevron; Princeton University, orange, black chevron; Stanford University, cardinal; University of Wisconsin, bright red; Yale University, dark blue.
