I have been blessed to be surrounded by amazing musicians and incredible instructors during my time at Colorado College. We have two separate musical worlds here at CC, the student band scene and the department led ensembles. As a senior moving on from this place it is my hope that these two spheres can be connected more closely in the years to come. There is so much potential and talent, and I believe that such energy can be harnessed to create a vibrant and recognized reputation for music at Colorado College.

Thank you to the department and to the musicians for making this concert a reality. I cannot imagine a better way to be sent off.

A special thanks to Ryan Banagale for sticking with me and encouraging any ideas I brought to him over the last four years. From FYE to graduation, I am grateful for your constant feedback, guidance, and support.

Thank You to my family for putting up with me and my loud music for twenty two years and for supporting it every step of the way. I love you guys to the moon and back.

And to all of the musicians and avid music lovers here tonight and to any who have been a part of the music scene at CC, thank you. What we have here is a truly special thing, and I am grateful to have been a part of it.
