

Agenda Item from the Academic Events Committee

The Academic Events Committee invites the Faculty, Administration and Staff to submit nominations for CC Honorary Degrees and proposals for First Monday events.

The award of honorary degrees is an important tradition at Colorado College, and it is of not that awards are conferred two times per year, at Opening Convocation and at Commencement. It is something of a distinction that Alumni honors are awarded, at Convocation, as a means to recognize individuals at mid-career, who have exemplified the application of their liberal arts education and show high promise for further achievements. Individually and collectively, please reflect about and nominate qualified individuals for 2015 awards, and beyond, and help maintain this strong tradition at CC.

Please also contribute your creativity and impetus to the **First Mondays program** for the coming year, in order to sustain the vitality of the program and take the opportunity to acquaint students, faculty, staff, alumni, and the broader CC community (via livestream) with a rich variety of provocative topics, stimulating speakers, and creative works. The First Monday program is community run and collectively achieved!

Nominations and Proposals are accepted throughout the year and evaluated on a rolling basis. Information including selection-criteria are online and available at your fingertips through CC online resources. Please go to:
