

when the haze clears:

THE IMPACT OF AMENDMENT 64

On election day, Colorado voted overwhelmingly to regulate marijuana like alcohol, but many CC students are still wondering what this will mean for them. Here are some of the facts:

- The law states that adults over 21 may possess, transport, and use up to **one ounce of marijuana**, and grow up to six plants at home.
- Colorado Governor John Hickenlooper has stated that he will sign the bill into law **within 30 days**, making possession and use legal.
- It will take roughly **a year** to set up the infrastructure for dispensaries. The licensing process for dispensaries is slow, so don't expect to buy weed legally overnight.
- Marijuana is still illegal under federal law. Colorado police have stated that the Drug Enforcement Agency will likely **not enforce the federal law** as long as measures of the Colorado law, such as the age limit of 21, are enforced.
- The CC administration is investigating what this law will mean for campus policy, but as of now, CC's **drug-free policy** remains.
